The Trials of Stem Cell Therapy

Stem Cells: Plenty of Hope, but Halting Progress

[Read more here.](#)**Asterias, CRUK Team Up For Testing New Stem Cell Based Cancer Vaccine**

Asterias Biotherapeutics, a subsidiary of BioTime, announced last week that it has entered an agreement with Cancer Research UK (CRUK) and Cancer Research Technology (CRT) to conduct a clinical trial of Asterias' novel immunotherapy cancer vaccine, AST-VAC2, for non-small cell lung cancer.

[Read article here.](#)**Clinical trial using iPS cells litmus test for promoting regenerative medicine**

The latest clinical trial is the first step of epoch-making research that could evolve into regenerative medicine. After careful safety assessment, putting the latest result into practical use should be promoted.

[Read article here.](#)**NYU Langone Scientists Report Reliable and Highly Efficient Method for Making Stem Cells**

Newswise - NEW YORK, September 18, 2014 - Scientists at NYU Langone Medical Center have found a way to boost dramatically the efficiency of the process for turning adult cells into so-called pluripotent stem cells by combining three well-known compounds, including vitamin C.
